## Summary of Feedback from Students

| Sl. | Area | Description |
|---|---|---|
| 1 | **Hostel and Mess Related** | 1. Hostel mess food is horrible. What we students eat , the management can never eat . Try and improve the Mess . |
| | | 2. Hostel foods and canteen are very bad |
| | | 3. Food quality should be improved |
| | | 4. Food quality should be improved |
| | | 5. Hostel food is not good. Please correct it. |
| | | 6. Canteen place need to be hygienic |
| | | 7. Has to improve hostel and food |
| | | 8. All good and well, canteen food was not so much good, cleanness of classroom is not good |
| | | 9. Hostel food improve |
| | | 10. Hostel and mess improve food |
| | | 11. Improve the quality of hostel food |
| | | 12. Qualities of food in mess should be better. |
| | | 13. Improve the quality of canteen food |
| | | 14. Canteen food is not good and not clean, which is not good for health. |
| | | 15. Everything is good.. But we all know that mess facility is drastically poor.. Being a holster I want that at least good food should be given to each and every student. Also fine system of the college is very pathetic. |
| | | 16. Food Need to be improved |
| | | 17. Need to improve food quality. And maintain a proper management in fair or fest... |
| | | 18. Overall experience is good but need to improvement in mess food |
| | | 19. Hostel food is not very up to mark. other facilities are good in college |
| | | 20. Better food to be provided in hostels |
| 2 | **Transport Related** | 1. Improve bus facilities |
| | | 2. Work on facilities of classroom and transport |
| | | 3. Provide more bus facilities |
| | | 4. Improve bus facilities |
| | | 5. Improve bus facilities |
| 3 | **Accounts Relate** | 1. Need more staff in account section.. |
| | | 2. Increase the number of counters and staff ofaccount section. |
| | | 3. Increase the number of counters and staff of account section. |
| 4 | **Academic Related** | 1. At least Upgrade The Lab Equipment Specially CSE labs |
| | | 2. College is overall good but need to work onsyllabus. |
| | | 3. Please update lab equipment |
| | | 4. Improve lab equipment and resolve all lab set upand in proper working condition |
| | | 5. Work on facilities of classroom and transport. |
| | | 6. We want smart classes with AC even if youincrease the fees |
| | | 7. Teachers needs to provide good notes |
| | | 8. there must be an discipline in college |
| | | 9. All Labs want update . |

| | | |
|---|---|---|
| **Academic Related** | | 10. Smart boards in B2 building |
| | | 11. Maintenance of classes in B2 building is required. In some classroom, fans are broken. Other than this everything is good. |
| | | 12. Improve class tidiness as most of the time after a holiday benches and classes are not clean and please don't pressurize students as they are already in pressure. |
| | | 13. Improve teaching quality and syllabus. And teach something that is helpful in placements not just old syllabus |
| | | 14. Overall college is decent enough but in field of masters degree the college can bring more variation like M Tech in other engineering fields. |
| | | 15. Please increase the time of class period |
| | | 16. Please decrease the Break Time (Recess) And Also Bus time it's too delay our parents and us don't like the timing of college!! |
| | | 17. Please decrease the time of reses and also the college time |
| | | 18. Please provide game period for students to play outdoor game |

### Summary of Feedback from Alumani

| Sl. | Area | Description |
|---|---|---|
| 1 | **Training and Placement** | 1. All are good but suggest for college industrial training should be at least 3-4 month during last year so that students gain more knowledge from industry. |
| | | 2. College should focus more on the practical work. Not only coding & development, but also about DevOps, QA, debugging, automation, etc. because companies give us these tasks too |
| | | 3. Focused training and placement Extracurricular activities on latest technology stack and trending features for job and placement. |
| | | 4. Please provide placement for all the candidates .otherwise they have to suffer for job. |
| | | 5. More companies should visit for our department |
| | | 6. There should be some extra trainings or seminars are arranged for further carrier development. |
| 2 | **Industry Oriented Curriculum** | 1. More industry grade curriculum to be added for CSE with specialized faculty for an in-depth knowledge and guidance. C-sharp, MEAN & MERN Stack, Java, Python based on student's choice. Promote learning in a focused curriculum relevant to desired job of the student. |
| | | 2. Make more industry oriented curriculum |
| | | 3. College should Focus on practical oriented learninginstead of just covering exam syllabus. |
| | | 4. According to my view practical knowledge required apart from theory portion |
| | | 5. Standard practice to update curriculum with respect to industry and focus on hands on practical know how. All the best. Cheers!! |
| 3 | **Hostel Mess and Facilities** | 1. Better food in hostel mess |
| | | 2. Hostel facilities need to be improved |
| 4 | **Lab Related** | 1. Arrange instruments for lab |
| | | 2. Better Teacher and sports, lab equipment and Free environment. |
| | | 3. There is scope of improvement in civil engineering lab |
| 5 | **Management Related** | 1. College need to enhance their management. They need to call out pass out students motivate current students .This college turning out to be love campus. Everyone was busy there in making relationship. Need to focus on coding culture of campus. Many things need to improve. But clg only focus on making more and more money. |
| | | 2. College fees are very high due to this students face a lot of trouble. If the fees are not deposited at the time of examination, college are not allow to fill the examination form and impose of fine is also very high So I request to all of the department head and principal also founder of the college pls consider the problem. |

## Summary of Feedback from Employers

| Sl. | Area | Description |
|---|---|---|
| 1 | **Technical Knowledge** | 1. Coding practice to level up the coding knowledge is recommended. |
| | | 2. More Technical knowledge should be gain by students and should be trained on soft skills. |
| | | 3. They need to be more professional and need to understand the work policy of the Company. Otherwise all good. |
| 2 | **Corporate Skills** | 1. More industry visits in campus and interaction with students of 2nd and 3rd year will help them develop corporate skills. |
| 3 | **Continuation in the Organization** | 1. We appreciate the on-going partnership between Rosa Tech and RVSCET in facilitating the recruitment and onboarding of candidates from your institution. We have successfully welcomed and on boarded many promising individuals from your college into our organization. I am writing to share our observations and concerns regarding some recent hires from your institution. While we have been impressed with the skills and potential of these candidates, we have encountered some challenges in retaining them within our organization. After successfully hiring these candidates, we made sure to provide them with clear terms and conditions of employment, including the salary structure. We were surprised to learn that a significant number of them chose to leave our organization despite no changes in the agreed-upon compensation package. This trend has raised concerns within our company as it not only affects our investment in training and development but also disrupts our operations. Our company invests a substantial amount of resources in training and up skilling these candidates, aiming to enhance their technological competencies and nurture their professional growth. The premature departure of these employees has hampered our workforce stability, hindered project continuity, and led to additional recruitment and onboarding expenses. We understand that employee turnover is a natural part of the business world, and people leave for various reasons. However, we would like to explore ways to address this issue and improve the hiring rates of candidates from RVSCET. We believe that with effective collaboration, we can work together to ensure that candidates from your institution find a fulfilling and long-lasting career at Rosa Tech. |
