<p>kindly provide a practical studies for the students studying engineering. Provide a competitive environment for them to learn new things and we request you kindly provide a teaching environment that is engaging. And provides a practical benefit to the students. Students should understand the clarity of the subjects they are studying. Why they are studying. Suggestion</p> <p>1) Provide a competitive environment by engaging them into co-curricular activities like for CS - weekly coding competition and extra benefits on winning them . 2) Teachers should be engaging that makes subject more interesting and easier to learn. 3) provide practical examples .</p>	Ujjwal	anonymous		November 10, 2023 7:28 am
